In more detail**Consolidated reporting within PIMS reduces the time spent on administrative tasks:**

- Evaluate overall policy performance online – asset values are amalgamated into the selected policy currency on a daily basis.
- Tax returns – submit one valuation instead of individual valuations and dividend receipts for each investment.
- Asset transfers – managed by experienced staff.

Flexible and convenient

- Accessible assets – thousands to choose from, broad in asset class and number
- Ability to tailor portfolio to varying attitudes to risk.
- Hold multiple cash accounts – enabling proceeds to mitigate currency risk.
- Withdrawals – regular or ad hoc are straightforward to set up.

Tax efficiencies

- Tax and estate planning – whether removing the requirements for probate or reducing the value of an estate for IHT purposes, RL360°'s comprehensive range of trusts can be used in conjunction with PIMS to address a number of tax planning scenarios.

Isle of Man – offshore stronghold

- Tax efficient location.
- Offshore jurisdiction – provides access to investments from multiple locations, not restricted to the domestic market.
- Isle of Man Compensation of Policyholders protection scheme, which covers 90% (subject to the provisions of the scheme) of our liability where RL360° is unable to meet its financial obligations. For more information visit: www.gov.im/ipa/insurance/regulations/insurancepolicyholderprotection.xml

RL360° – financially robust

- B+ AKG rating – no other offshore company has a higher rating.
- Strong financial backing – Vitruvian, Munich Re and Royal London Group.
