It is important to know that unit prices reflect the value of the underlying assets of the funds and so can go down as well as up. Past performance is not indicative of future performance. Where a fund invests in overseas securities, the unit prices may also rise and fall purely on account of exchange rate fluctuations. RL360 Insurance Company Limited is not responsible for, and will not compensate Policyholders in relation to, the performance of their underlying funds.

RISK RATINGS: 1 Low Risk; 2 Low to Medium Risk; 3 Medium Risk; 4 Medium to High Risk; 5 High Risk. The risk ratings have been set by us having taken due account of the asset mix of each fund. The risk ratings apply to investments made in the base currency of the funds and do not take into account any exchange in rate fluctuations.

Owners of policies issued by RL360 Insurance Company Limited receive the protection of the Isle of Man Compensation of Policyholders protection scheme, which covers an amount equal to 90% (subject to the provisions of the scheme) of RL360°'s liability where it is unable to meet its financial obligations. RL360° reserves the right to adjust the returns to cater for any levy or charge made on it under the regulations or similar legislation.
