THIS IS A NOTIFICATION THAT AFFECTS THE POLICIES LISTED IN THIS LETTER. PLEASE PASS THIS TO THE INVESTMENT ADVISER IN YOUR COMPANY WHO MANAGES THE INVESTMENT CHOICES ON THESE POLICIES, AS THEY MAY WISH TO TAKE SOME ACTION.

Dear investment adviser

MERGER OF THE JPM SINGAPORE FUND AND IMPACT ON RL360 POLICIES

JP Morgan has announced that it will be merging its JPM Singapore fund (the “merging fund”) into its JPM ASEAN Equity fund (the “receiving fund”) on 14 December 2018 (the “effective date”). As you provide advice to one or more RL360 policies invested in this fund we wanted to make you aware of the changes and explain the options for switching to a different fund if you prefer.

We have not written directly to the owners of the policies listed. As each policyholder has appointed your company in the capacity of investment adviser to manage the investment choices on their behalf, you should contact your clients as necessary to discuss the details of this notification and any recommended course of action. The unit linked policies advised by you and impacted by this notification are listed overleaf.

Reason for the merger

JP Morgan believe that the merging fund has not attracted sufficient assets and that the fund has limited prospects for growth.

JP Morgan believe that the merger will provide the benefit of investing in a larger fund that has the prospect of stronger growth in assets in the future and may potentially benefit from economies of scale which may result in lower operating and administrative expenses. They are also of the opinion that the receiving fund has a broader investment universe and therefore offers the benefits of increased diversification.

The merging fund in which your clients are invested invests primarily in Singaporean companies, while the receiving fund invests primarily in companies of countries which are members of the Association of South East Asian Nations (ASEAN), which includes Singapore.

What happens next?

We have closed the merging fund to new business and top-ups with immediate effect. Policies will be automatically switched into the receiving fund on the effective date, with any regular premiums being redirected to the new fund. Shortly after this date you will receive a confirmation letter detailing the new holdings. Please note that although the switch value will be the same, your clients will receive a different number of units in the receiving fund as the unit price is different to the merging fund.

Your options

If you are happy to invest in the receiving fund, you don't need to do anything. However, if you would prefer to switch to a different fund, it's free of charge and very easy to do.

Switching funds is easy

* Ongoing Charge includes the Annual Management Charge plus other operational expenses, so better reflects the total costs applied to the fund.

** 3 Year Standard Deviation – Standard deviation is a statistical measurement which, when applied to a fund, expresses its volatility, or risk. It shows how widely a range of returns varied from the fund's average return over a particular selected period; in this case a 3 year period has been selected. If a fund had an average return of 5%, and its volatility was 15%, this would mean that the range of its returns over the period had swung between +20% and -10%. The 3 Year Standard Deviation figure shows the annualised standard deviation based on the monthly rates of return of the fund over the past 3 years ended 31 October 2018. This risk level is for reference only.
