## ORACLE SUPERGHARGING YOUR INVESTMENT

## CHOOSING WHERE TO INVEST CAN BE A DIFFICULT PATH TO NAVIGATE, ESPECIALLY IF YOU HAVE RECEIVED AN UNEXPECTED LUMP-SUM, OR THE PROCEEDS FROM A MATURING SAVINGS AND INVESTMENT CONTRACT.

If you're planning for the future, you'll need to decide your next steps very carefully and if you're looking to reinvest the money, the thought can be overwhelming with so much choice.

You need to choose an investment plan that enhances your earning potential and rewards you for staying invested over the longterm.

It's important to choose a plan and a provider that can support you through your journey as well as providing the choice and flexibility you need, when your plans or your goals change

## EXTRA ALLOCATION

Oracle is a lump-sum investment plan that gives you extra allocation when you invest. The amount of extra allocation we provide is based on the amount you invest at the start of your plan.

This extra allocation can supercharge your investment.

Example of initial allocation rates and extra allocation amounts for US Dollar plans:

| Payment (USD) | Allocation rate <br> $\%$ | Total payment <br> invested | Extra allocation <br> on Day 1 |
| :---: | :---: | :---: | :---: |
| $28,000+$ | $100 \%$ | 28,000 | $\mathrm{~N} / \mathrm{A}$ |
| $49,000+$ | $101 \%$ | 49,490 | 490 |
| $70,000+$ | $102 \%$ | 71,400 | 1,400 |
| $112,000+$ | $103 \%$ | 115,360 | 3,360 |
| $175,000+$ | $104 \%$ | 182,000 | 7,000 |
| $210,000+$ | $105 \%$ | 220,500 | 10,500 |

The extra allocation is added to your chosen fund investments when your plan starts.

You may choose to invest the extra allocation in:

- An equity fund with a suitable risk profile as a speculative investment, or
- You could invest into a safer investment, such as a money market fund with the intention of paying plan charges or taking withdrawals from your plan, or
- You can simply add it to your chosen investment funds

Because Oracle does not charge dealing or custody charges, you can make as many changes to the funds options as you like. And, with around 350 funds, there is sure to be something that fits your investment profile or risk appetite.

Please note that extra allocation will be subject to an exit charge if the plan is exited in full within the first 5 years from the date of issue. The charge will be equal to $100 \%$ of the extra allocation rate reducing at each plan anniversary by 20\%.

## LOYALTY BONUS

In addition to enhancing the initial investment, we also provide a loyalty bonus after completion of the first 5 years. We'll provide an extra 0.5\% based on the value of your plan on the 6th year anniversary of your policy, and every year thereafter whilst your plan remains in force.

## For example:

- If a plan commences with an initial payment of USD28,000, and grows at 6\% every year, after the first 10 years, the value of the loyalty bonuses applied to the plan would be USD958.
- If a plan commences with an initial payment of USD250,000, and grows at 6\% every year, after the first 10 years, the value of the loyalty bonuses applied to the plan would be USD9,011.

When the loyalty bonus is paid, on the 6th plan anniversary, the investment is split equally across the funds held in the plan.

However, you may also wish to invest these proceeds in an alternative fund, in the same way as we mentioned for the enhanced allocation. The choice is entirely yours.

Payment Allocation Rates -
All currencies:

| GBP | USD | EUR | CHF | AUD | HKD | JPY | Allocation rate |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
