# INTRODUCTION

---

This guide is intended for the following regular savings and investment products:

- Regular Savings Plan
- Regular Savings Plan Malaysia
- Oracle
- Quantum (for policies taken out after April 2010)
- Quantum Malaysia
- Paragon

For Quantum policies issued prior to April 2010 under the Scottish Provident International brand, please refer to the Scottish Provident International Funds Investment Guide for the relevant fund choices.

This guide provides you with information about the funds that your plan can invest into.

If you are applying for a new plan you should speak to your financial adviser and read the rest of the literature suite in full, which can be accessed on our website [www.r1360.com](http://www.r1360.com).

# CHOOSING YOUR FUNDS

---

It's up to you to tell us which funds you would like your payments to be invested in. We invest your money creating "units" in the fund, and each unit is valued using the fund price. As the fund price goes up your units increase in value and as the price goes down they decrease.

Some funds perform better than others during the ups and downs of market conditions so we provide you with a wide range of funds in different sectors and asset classes with different risk ratings. Bear in mind that you don't have to invest in just one fund. In fact diversifying your plan across several different style funds can be a wise thing in order to help smooth the returns on your investments.

The range of funds are provided by some of the world's leading managers including Aberdeen Standard, BlackRock, BNY Mellon, Columbia Threadneedle, Invesco, JP Morgan and UBS.

## **WHY YOUR CHOICE MATTERS**

Imagine an athletics team. Now think about all the different events that those athletes will take part in. Why are there specific athletes for certain events? Why not have one person take part in every event? It simply comes down to some individuals being better adapted to certain events than to others.

Likewise with investments you have some which are designed to achieve one goal and others designed to achieve something else.

The question for you is whether you prefer the type of athlete who consistently achieves respectable times and results or the potential of a star who could win the championship but is equally likely to finish last?

In our industry the level of risk you are willing to take to achieve growth is described as your risk appetite, and you need to decide how much risk you are hungry for.

Funds matter because the selections you make will determine how your plan performs and the experience you have whilst meeting your goals.

# MAKE YOUR SELECTION

---

The following overview lists each fund available by sector along with a range of information about it. Most of these are clear, but some terms you might be unfamiliar with, so here is an explanation:

**ISIN** - this is simply a reference which identifies the fund in line with international standards.

**Domicile** - this is where the fund structure has been established, many of which will be in Luxembourg.

**AMC %** - annual charge applied by the fund manager for running the fund, already taken into account in the fund price.

**Perf fee %** - this is a performance fee that may become payable where the fund performance has exceeded a certain amount (in fund literature you might see this referenced as the “benchmark”, “hurdle rate” or “water mark”). Performance fees are normally payable in addition to the AMC but also reflected in the price. The fund prospectus will tell you more.

**Fund of funds** - this is when the fund invests into a series of other funds, these may be offered by the same fund company or multiple other fund companies.

**Socially conscious** - these funds generally invest into companies that operate by certain ethical principles, provide social benefits or are sensitive to the environment.

You can make changes to your fund choice at any time, free of charge, after your plan starts. We call this a “switch”. A switch form is available on our website to help you do this. If you are registered to view your plan online and have applied for online switching, you can even conduct your own switches online quickly without the need to post any forms to us.

**WE ARE HERE AS PART OF  
A LONG-TERM, ONGOING  
RELATIONSHIP AND WANT YOU  
TO ACHIEVE YOUR GOALS.**

---

We can't make any investment decisions for you and are not responsible for how the funds perform.

You must be happy with the fund choices you or your adviser makes before going ahead. We do not check their suitability for you.

We offer online access to all of our plan owners so you can monitor your plan performance daily if you wish. We can't stress enough how important it is you treat your plan like any other financial product you have, review it regularly, ask questions and talk to your financial adviser about anything you are unsure of.

## **FUNDS**

---

Investment can be made into any of the funds available in the range regardless of the denominated plan currency. It is important to know that unit prices reflect the value of the underlying assets of the funds and so can go down as well as up. Past performance is not indicative of future performance. Where a fund invests in overseas securities, the unit prices may also rise and fall purely on account of exchange rate fluctuations.

RL360 Insurance Company Limited is not responsible for, and will not compensate plan owners in relation to, the performance of their underlying funds. For details of all charges that may affect the individual funds please refer to the specific fund manager's literature.
