# INTRODUCTION

---

This guide is intended for the following protection products:

- LifePlan
- Protected Lifestyle

For LifePlan Lebanon please refer to the LifePlan Lebanon Protection Fund Guide for the relevant fund choices and for Protected Lifestyle Lebanon please refer to the Protection Fund Guide for Lebanon plan owners.

Your plan is all about providing protection, and in the insurance industry there are generally two different ways to do this:

1. A plan where you make payments and get nothing back if you stop paying; or
2. A plan where you make payments which are invested and may be worth something even if you stop paying and bring it to an end.

Your plan is the latter.

This guide provides you with information about the funds that your plan can invest into.

Before applying for your plan you should speak to your financial adviser and read the rest of the literature suite in full, which can be accessed on our website [www.r1360.com](http://www.r1360.com).

# CHOOSING YOUR FUNDS

---

When you apply for your plan, you tell us which funds you would like your payments to be invested in. We invest your money creating “units” in the fund, and each unit is valued using the fund price. As the fund price goes up your units increase in value and as the price goes down they decrease.

The goal for your plan is to be worth a similar value, or more, to the cover you require at the point of making a claim.

Some funds perform better than others during the ups and downs of market conditions so we provide you with a wide range of funds in different sectors and asset classes with different risk ratings. Bear in mind that you don't have to invest in just one fund. In fact diversifying your plan across different style funds can be a wise thing in order to help smooth the returns on your investments. You can choose up to 5 funds.

The range of funds are provided by some of the world's leading managers including Aberdeen Standard, BlackRock, BNY Mellon, Columbia Threadneedle, Invesco, JP Morgan and UBS.

## **WHY YOUR CHOICE MATTERS**

Imagine an athletics team. Now think about all the different events that those athletes will take part in. Why are there specific athletes for certain events? Why not have one person take part in every event? It simply comes down to some individuals being better adapted to certain events than to others.

Likewise with investments you have some which are designed to achieve one goal and others designed to achieve something else.

The question for you is whether you prefer the type of athlete who consistently achieves respectable times and results or the potential of a star who could win the championship but is equally likely to finish last?

In our industry the level of risk you are willing to take to achieve growth is described as your risk appetite, and you need to decide how much risk you are hungry for.

Funds matter because the selections you make will determine how your plan performs and the experience you have whilst meeting your goals.

# MAKE YOUR SELECTION

---

The following overview lists each fund available by sector along with a range of information about it. Most of these are clear, but some terms you might be unfamiliar with, so here is an explanation:

**ISIN** - this is simply a reference which identifies the fund in line with international standards.

**Domicile** - this is where the fund structure has been established, many of which will be in Luxembourg.

**AMC %** - annual charge applied by the fund manager for running the fund, already taken into account in the fund price.

**Perf fee %** - this is a performance fee that may become payable where the fund performance has exceeded a certain amount (in fund literature you might see this referenced as the “benchmark”, “hurdle rate” or “water mark”). Performance fees are normally payable in addition to the AMC but also reflected in the price. The fund prospectus will tell you more.

**Fund of funds** - this is when the fund invests into a series of other funds, these may be offered by the same fund company or multiple other fund companies.

**Socially conscious** - these funds generally invest into companies that operate by certain ethical principles, provide social benefits or are sensitive to the environment.

**You can make changes to your fund choice at any time, after your plan starts. We call this a “switch”. A switch form is available on our website to help you do this. If you are registered to view your plan online and have applied for online switching, you can even conduct your own switches online quickly without the need to post any forms to us.**

# FUND RANGE FOR LIFEPLAN

## For Protected Lifestyle go to page 11

Data is sourced from Morningstar® and is correct as at 8 February 2019.

Please note that the LifePlan fund range is available at the 'net asset value' (NAV), which means there are no initial fund charges when you request a switch.

# FUND RANGE FOR PROTECTED LIFESTYLE

For LifePlan go to page 5

Data is sourced from Morningstar® and is correct as at 8 February 2019.

Please note that for external funds a bid/offer spread of 2.5% applies to each fund. This means you buy units at the offer price which are then valued in your plan at the bid price. The bid price is 2.5% less than the offer price. For the Internal Funds the bid and offer price will be the same.

**WE ARE HERE AS PART OF  
A LONG-TERM, ONGOING  
RELATIONSHIP AND WANT YOU  
TO ACHIEVE YOUR GOALS.**

---

We can't make any investment decisions for you and are not responsible for how the funds perform.

You must be happy with the fund choices you or your adviser makes before going ahead. We do not check their suitability for you.

We offer online access to all of our plan owners so you can monitor your plan performance daily if you wish. We can't stress enough how important it is you treat your plan like any other financial product you have, review it regularly, ask questions and talk to your financial adviser about anything you are unsure of.

## **FUNDS**

---

There's no getting away from the fact that whether you choose low risk, high risk or a combination of both, there is always some risk. In the most extreme of cases this could result in you receiving nothing back from your plan.

Your plan is protected by the Isle of Man Compensation of Policyholders Protection Scheme which will cover an amount equal to 90% of your plan value (subject to the provision of the scheme) should RL360 become insolvent.

This protection does not extend to fund companies becoming insolvent, and because the funds are owned in the name of RL360 it is extremely unlikely that compensation will be available from other schemes.

We would also like to make you aware that fund prices will go up and down during the life of your plan and just because a fund has performed well in the past doesn't mean it will continue to do so in the future. You should also consider the impact of exchange rates on fund prices which might fluctuate purely due to the value of one currency compared to another.
