Dear <Salutation>

LIQUIDATION OF THE AMUNDI FUNDS EQUITY KOREA FUND AND IMPACT ON YOUR RL360 POLICY - <PRODUCT> <POLICY NUMBER>

Amundi Funds has announced that it will be liquidating its Equity Korea Fund (the “liquidating fund”) on 4 March 2019 (the “effective date”). Your policy invests in the liquidating fund so we wanted to make you aware of the action we will be taking and explain your options for switching to a different fund if you prefer.

Reason for the liquidation

Amundi Funds has taken the decision in accordance with the Articles and Prospectus which state that the Board is authorised to liquidate a sub-fund once the value of the total assets of that sub-fund does not allow for it to be operated in an economically efficient matter.

What happens next?

The liquidating fund has been closed to new business and top-ups with immediate effect. As you are an existing investor, you can continue to invest in the fund until 25 February 2019 at which point your holdings will be automatically switched, and any regular premium allocation redirected, into the JPM Korea Equity Fund (the “alternative fund”).

Please note that although the switch value will be the same, you will receive a different number of units in the alternative fund as the unit price is different to the liquidating fund. Once completed, details of the switch will be available to view via the transaction screen for your policy on our Online Service Centre. If you are not already registered to manage your policy online, then you can sign-up at www.rl360.com.

A comparison of the liquidating fund and alternative fund can be found in the comparison table overleaf.

Your options

If you are happy to invest in the JPM Korea Equity Fund, you don't need to do anything. However, if you would prefer to switch to a different fund, it's free of charge and very easy to do. You may want to discuss the options with your financial adviser before deciding.

Switching funds is easy

Visit the fund centre for your product at www.rl360.com/fundcentres to help you decide on a new fund, or funds. After that choose one of the following options:

Dear <Salutation>

LIQUIDATION OF THE AMUNDI FUNDS EQUITY KOREA FUND AND IMPACT ON YOUR RL360 POLICY - <PRODUCT> <POLICY NUMBER>

Amundi Funds has announced that it will be liquidating its Equity Korea Fund (the “liquidating fund”) on 4 March 2019 (the “effective date”). Your policy invests in the liquidating fund so we wanted to make you aware of the action we will be taking and explain your options for switching to a different fund if you prefer.

Reason for the liquidation

Amundi Funds has taken the decision in accordance with the Articles and Prospectus which state that the Board is authorised to liquidate a sub-fund once the value of the total assets of that sub-fund does not allow for it to be operated in an economically efficient matter.

What happens next?

The liquidating fund has been closed to new business and top-ups with immediate effect. As you are an existing investor, you can continue to invest in the fund until 25 February 2019 at which point your holdings will be automatically switched, and any regular premium allocation redirected, into the JPM Korea Equity Fund (the “alternative fund”).

Please note that although the switch value will be the same, you will receive a different number of units in the alternative fund as the unit price is different to the liquidating fund. Once completed, details of the switch will be available to view via the transaction screen for your policy on our Online Service Centre. If you are not already registered to manage your policy online, then you can sign-up at www.rl360.com.

A comparison of the liquidating fund and alternative fund can be found in the comparison table overleaf.

Sector	Korea Equity	Korea Equity
Risk and reward rating (1 being low, 7 being high)	6	6
Annual Management Charge	1.70%	1.50%
Ongoing Charge *	2.25%	1.80%
3 Year Annualised Performance	2.91%	14.90%
3 Year Standard Deviation **	17.67%	17.12%

Information within table sourced from Morningstar® as at 1 February 2019.

* Ongoing Charge includes the Annual Management Charge plus other operational expenses, so better reflects the total costs applied to the fund.

** 3 Year Standard Deviation – Standard deviation is a statistical measurement which, when applied to a fund, expresses its volatility, or risk. It shows how widely a range of returns varied from the fund's average return over a particular selected period; in this case a 3 year period has been selected. If a fund had an average return of 5%, and its volatility was 15%, this would mean that the range of its returns over the period had swung between +20% and -10%. The 3 Year Standard Deviation figure shows the annualised standard deviation based on the monthly rates of return of the fund over the past 3 years ended 31 January 2019. This risk level is for reference only.

6 February 2019

Dear <Salutation>

LIQUIDATION OF THE AMUNDI FUNDS EQUITY KOREA FUND AND IMPACT ON YOUR RL360 POLICY - <PRODUCT> <POLICY NUMBER>

Amundi Funds has announced that it will be liquidating its Equity Korea Fund (the “liquidating fund”) on 4 March 2019 (the “effective date”). Your policy invests in the liquidating fund so we wanted to make you aware of the action we will be taking and explain your options for switching to a different fund if you prefer.

Reason for the liquidation

Amundi Funds has taken the decision in accordance with the Articles and Prospectus which state that the Board is authorised to liquidate a sub-fund once the value of the total assets of that sub-fund does not allow for it to be operated in an economically efficient matter.

What happens next?

The liquidating fund has been closed to new business and top-ups with immediate effect. As you are an existing investor, you can continue to invest in the fund until 25 February 2019 at which point your holdings will be automatically switched, and any regular premium allocation redirected, into the JPM Korea Equity Fund (the “alternative fund”).

Please note that although the switch value will be the same, you will receive a different number of units in the alternative fund as the unit price is different to the liquidating fund. Once completed, details of the switch will be available to view via the transaction screen for your policy on our Online Service Centre. If you are not already registered to manage your policy online, then you can sign-up at www.rl360.com.

A comparison of the liquidating fund and alternative fund can be found in the comparison table overleaf.

Your options

If you are happy to invest in the JPM Korea Equity Fund, you don't need to do anything. However, if you would prefer to switch to a different fund, it's free of charge and very easy to do. You may want to discuss the options with your financial adviser before deciding.

Switching funds is easy

Visit the fund centre for your product at www.rl360.com/fundcentres to help you decide on a new fund, or funds. After that choose one of the following options:
