(together the "Funds")

We have received notification from GAM Star Fund plc (the "Company") of changes to the above Funds. These changes took effect on **27 November 2024** (the "Effective Date").

Changes to the investment objective and policy

The Company has advised that the investment objective of the Funds has changed from a capital growth approach to a capital preservation approach accompanied by stable returns. The revised investment objective is now to *'achieve capital preservation accompanied by stable returns via dynamic asset allocation'*.

The investment policy of the Funds has changed to a direct and indirect multi-asset strategy as opposed to generating indirect exposure only to different asset classes via investment in collective investment schemes. In accordance with the policy changes, exposure may be achieved directly (where permissible in accordance with UCITS* requirements) and/or indirectly through financial derivative instruments, collective investment schemes and/or financial instruments constituting transferable securities (such as exchange traded notes and/or exchange traded commodities) in the following asset classes:

- Equities and equity related securities
- Fixed income securities
- Commodities
- Alternative assets (other than commodities) in which it is not permitted to directly invest (such as real estate and Fund hedge Funds).

**An 'undertaking for collective investment in transferable securities' (UCITS) is a type of investment Fund that primarily invests in securities such as stocks, bonds, short-term treasury instruments, and cash*

Further details of the objective and policy changes applicable to the Funds can be found in the enclosed Appendix.

The Company believes that the changes to the investment objective and policy of each of the Funds will enhance the Company's product offering by emphasising a direct investment approach over indirect investment in other Funds. The Company's investment team has been consolidated and strengthened to more efficiently meet client's needs, achieve their risk/return goals and optimise risk management.

Change of benchmark

The benchmark for the Funds, used for performance monitoring purposes, has changed to a 'Risk-Free Rate' as appropriate for the relevant class currency. Please refer to the enclosed Appendix for further details.

Change of name to GAM Star Global Balanced and GAM Star Global Growth
